## Customer Reviews

Book by Apps, Peter

This book is now available on Kindle. It is excellent. There is direct access via the Table of Contents to species information like Lions, Zebra, Rock Hyraxes etc. My Kindle version has B&W photos -- reasonable but not great. There are excellent line drawings. See my review. Apps did another book on Animal behaviour -- I have not compared the two, but from my quick look I would go for Wildways first. Creatures of Habit..... Photographer Richard du Toit, text Peter Apps (usually listed under the Photographer).

This book is simply the best one available on the topic of ethology of African mammals. Make sure you get it before you go to Africa, or get it after your trip and you will still learn a ton.
