Monster Born (Northern Creatures Book 1)

Synopsis

Elves, werewolves, witches, vampires, and the patchwork son of Victor Frankenstein...I walked out of the Arctic and into Alfheim's magic two centuries ago. The elves had no idea what to do with the giant, re-animated corpse in their midst other than to offer me what they had long offered all unloved and unwanted magicals -- a home. Without elven magic, the Alfheim Werewolf Pack would descend into madness. Without the stability of the elves, the local vampires and witches would fall prey to their own evil natures. And without the elves, I would still be the rage-filled monster stitched together by my father's genius and unholy hubris. Now, I have a good life. I have family. Friends. A community that supports and protects me. But some ghosts from rage-filled pasts are more horrific than others. Some want to rip apart more than just my soul. Some want my flesh. And now I must face a vampiric demon so powerful not even elven magic can stop it....A little Penny Dreadful. A tad bit Fargo. All Northern Creatures. Welcome to Alfheim, Minnesota. Join Frank Victorsson and the magical people of Alfheim, Minnesota, in *Monster Born*, the first novel in the new Northern Creatures series from Kris Austen Radcliffe.

Customer Reviews

Great book! Overall it was a fast paced book that kept my attention wondering if Victor would solve it and the cute little fire elf would be okay. Of course it doesn't let us know her fate just yet but it opens the book to some exciting events to come. "brother" seems mysterious and spooky and you often wonder if Dag (The Queen of Elves) or Arnie (the King) are going to start a war among them. Also was great to have a little story about MN since that is where I live!!! Great writer and totally recommend and can't wait for the second one to come out later this year to check it out!

I love Kris Austen Radcliffe's imagination. In this book, Frankenstein's monster, Frank Victorsson is alive and well living with elves in Minnesota. She has crafted this book so well, that this fantastical premise seems perfectly believable. I love this story. I love how well Radcliffe has sculpted this story, weaving magic and the famous Mary Shelley book in and out of the prose seamlessly. I love the pace of this story, how the story comes together and gets really exciting. What a great beginning to a new series! I can't wait for the next book! 5 stars

This book is a really great take on all the monsters I have learned to love over the years. Kris's books has always been at the top of my must read list and this one is no different. This is a great start into a new genre for her and I hope to be able to read more from her. Alfheim, Minnesota is my new place to want to live where elves rule. Frank Victorsson is a great take on Frankenstein's monster and he is such a loveable character. I could go on and on but this will have to be enough this is a must read!!!

I've read the complete Fate-Fire-Shifter-Dragon series, and the Quidell Brothers also. I loved both of them for their vividness, rich character-creation, and their propulsive story-lines. The Fate-Fire series created a whole world that enjoyed "living in" for the period in which I read them. Now comes this new series, "Northern Creatures," and as soon as I began reading this one, book one, "Monster Born," I was hooked. I could tell we were under the spell of a master storyteller. Radcliffe will not disappoint!

Love the book from the very beginning. I was enchanted with the characters and their world. Kris weaves a beautiful story that keeps you turning pages. The characters have such depth and the

details of the story leave you holding onto your seat. A definite must read! I did not want to put the book down. Can't wait to get the next book.

This book was unique. I've never read a story where Frankenstein was the protagonist. I enjoyed getting to know him. The writing was lyrical; sometimes a little slow. But overall a good read. I've already pre ordered the next book.

Great new series, elves live in Minnesota who knew, with a local werewolf pack and a very large gentlemen everyone calls Frank. Fun read I can't wait for book 2 and 3 to be released.

I chose this rating as this book was a little difficult to follow, for me. I love this author but this was not my favorite book.
