Customer Reviews

I recently began playing alto sax 35 years after quitting the tenor sax in high school. I love playing the alto. I purchased a variety of music books, including this one. Nothing I play in this book sounds right to me. I get out other books of pop music and can play recognizable songs. But this Beatles book is just not working for me. One thing that I have found I enjoy most is playing the songs out of the books that have a CD to play along with. I think this book would benefit greatly from having a CD. The plus side for this book is that there is a really good selection of songs that span the Beatles catalog.

Bought this for my son as he has become a huge fan. He can't put it down and is playing all the songs very nicely. It's nice to hear him play it in the background as I do whatever I'm doing around the house. I find myself singing and humming along with his playing.

This book is great if your playing for your own enjoyment. if you want to play it for a solo you will have to transpose it into the original key. if you don't it shall sound weird when you play it to the

track. so you should buy this for a teen between 13 and 14 who enjoys playing there sax or flute. i enjoy it greatly. but i am a 13 year old.source:me

It was a gift for my granddaughter and she loved it.

11 year old son loves it. He played Norwegian Wood and I was so happy it brought tears to my eyes.

grandson loves it

Bought this for my nephew

My 12 year old son loves loves the Beatles. He's only been playing the saxophone for a little over a year and picked this book up and started playing all the songs. I was surprised at how well he played them. He plays them while listening to his ipod so he keeps with the beat. It's a good book for even the beginner player.
