Grade 5-8-In 1914, Ernest Shackleton determinedly set out to be the first to cross Antarctica on foot. Although the ice prevented his group from ever reaching their goal, they survived for two years in the world's most severe climate. They lived onboard ship, on ice floes, on an uninhabited island, and in a lifeboat sailing to find help. Fine has captured the excitement and adventure of this event exceptionally well. While keeping the reading level low and the sentences short, she relates the story in a way that will hold reluctant readers' attention right to the end. A well-designed hi/lo book, enhanced by maps or black-and-white photos on every other page.Elizabeth Stumpf, Clearfield Middle School, PA Copyright 2002 Reed Business Information, Inc.

Jil Fine is the author of several nonfiction books for children.

This is a great intro to the Shackleton expedition, and should pique the interest of younger fans towards explorers, Antarctica, and history.

Great illustrations. Story was told very well. Easy to follow. This would be very good for kids as well as adults.

good . arrive on time. very sharp and nice feel in your hand. A nice company to deal with .Hope my product and I get many happy years together .Would for sure buy another product from them. recommend it to my friend. send it to my teacher as a gift,

The only oceanic voyage worse than the Shackleton Expedition was Odysseus's Odyssey, surprisingly Shackleton's crew somehow all managed to endure whereas Odysseus was the sole survivor in his epic. This is a quick read about a real explorer and his crew who showed tremendous courage and determination to live when the odds were totally against them. Perfect for grade school and middle school readers.
