Diving Gozo & Comino: The Essential Guide To An Underwater Playground

Synopsis

Gozo, Malta, has a multitude of underwater attractions. Divers can explore breathtaking caves, tunnels, wrecks, reefs and bays. If you consider the profusion of marine life and good visibility it is not hard to understand why the diving here is consistently voted amongst the best in Europe. The latest release from Dived Up Publications, Richard Salter's new book covers a huge 57 dives on Gozo and 14 on Comino. Original site maps include suggested routes, the location of underwater caves and swim-throughs, depth and features. Photographs from a variety of contributors show both Gozo's underwater scenery and the topside landscape. Written by a vastly experienced resident instructor and guide, *Diving Gozo & Comino: The essential guide to an underwater playground* features both shore and boat dives, including some sites which are very rarely explored. Whether researching a self-guided trip or diving with one of Gozo's many professional centres this book will help you to pick and plan safe and fun dives. But not only that - *Diving Gozo & Comino* also contains information about the island's rich history, fascinating tourist sites, celebratory village festas and delicious original food.* *Diving Gozo & Comino* includes changes caused by the collapse of the Azure Window at Dwejra. Although an incredibly sad loss, this natural event was just one of an infinite number which have sculpted the coastline of the Maltese islands over the millennia, as divers can see better than most. Underwater the layout of the dive site was altered with the landscape containing new swim-throughs and shallower parts, making it accessible to more divers. The adjacent Blue Hole was unaffected.

Customer Reviews

'This is a very good guide... One of the joys of diving in Gozo, and which justifies the use of the term "underwater playground" in the title, is that it is one of those rare places where divers can pack a 4x4 or van with kit, tanks and friends and take off for whichever sites take their fancy. They also need a reliable guide-book - this new one deserves its place in the glovebox'-- Diver; 'A well put together and good-looking guide book that will be a useful tool for anyone planning on diving Gozo and Comino. It is the sort of book that first timers, as well as those experienced in diving here, will want to have on their shelves'-- Scubaverse.com; 'Richard crams his book with everything you need... an impressively well thought-out guide to visiting these islands. The question is not why should you buy this guide, but why wouldn't you?'-- BritishDiver.co.uk

Richard Salter is an instructor and dive guide who started diving the Maltese islands in 2004, where he has amassed over 5000 dives, mostly on Gozo and Comino. After finding accurate information hard to come by and existing publications lacking he started to draw his own dive site maps. He also learned some local history so that he could show divers the best places, depending on the kind of diving they wished to pursue. Now he shares his knowledge so that divers can safely enjoy all that Gozo and Comino have to offer.
