I have to say, it is a beautiful book. Very tactile feel...heavy...and has many wonderful colored plates. I've only read a couple of chapters, and I like what I've read. However, I feel it could have been a bit more comprehensive. What is written is merely a reiteration of the narrative you find on the show itself. I was hoping for information that I would have gone into more depth about each episode. I'm not quite sure it warrants the price, but I do like having it in my collection.

Really interesting and fun book to read. Since this is a companion book to the Ancient Aliens television show, you may not learn a whole lot if you are a devoted fan but I believe you'll still enjoy the book. If you aren't a regular viewer of the TV show I think you'll still enjoy reading the book. The book will make you ask "what if" we were visited by extraterrestrials just like "Chariots of the Gods" did almost 50 years ago.

Entertaining and excellent short essays on various facets of the subjects detailed in the Ancient Alien television series. At least one of the fifteen essays was fairly poor, but some of the others more than made up for it. The section on Roswell and UFO research in general by Linda Moulton Howe was particularly intriguing and offered some information I'd not seen before. All in all, an engaging book that will make you think.

the truth is out there,,,believe and live long and prosper

Very high quality design and production. You can open to any page and read and be interested. If you liked any of the History channel episodes you will like the book more as it has more detail.

This is all the information we been missing from the TV show, i can not put in down.

Great book !! just like the show !!! full of information and answers but best of all more questions.
highly recommend it!

Excellent essays by several of the journalists who show up on the Ancient Aliens TV program from time to time. Also contains many beautiful photos. This is one "coffee table book" that's a must-have if you're into this genre.
