The Original Sudoku Color Page-A-Day Calendar 2016

Synopsis

For Sudoku lovers, it doesn't get better than this: a year of full-color puzzles handcrafted by the experts at Nikoli, the Japanese company that invented the game. The puzzles begin easy each weekend and increase in difficulty over the course of the week—but all strike a perfect balance of challenge, solvability, and addictive appeal. Because they are created by hand, not computer, every puzzle is like matching wits with an expert who knows how to keep you engaged and entertained, every step of the way. It's the original Sudoku—and still the best Sudoku.

I was very happy to see that the 2016 version of Sudoku Page has continued having the easy puzzles on the weekend. The 2016 calendar is set up as follows: Monday - Easy Tuesday - Medium Wednesday - Medium Thursday - Hard Friday - Hard Saturday & Sunday - Very Easy Sunday - Easy. The Saturday and Sunday puzzles are on the same page, which means small squares. Since both Saturday and Sunday are easier puzzles, this isn't as much of an issue with having to write in numbers. I can usually figure out the patterns without having to write in numbers. I love working my brain this way. The weekday pages have big squares so you have plenty of room to write in potential numbers. You don't even have to write super small! If you are looking for a fun way to challenge your brain, you will enjoy this calendar. You don't need to be a math genius; all you need to do is to be able to apply logic.

I like the puzzles, but I'm disappointed that they changed the format to this cheaper mode. I had one of these 2 years ago, and the pages were loose in a holder, so you could take the page out to do the puzzle and then put it back for the rest of the day. This one uses the paper pad method, and it's hard to write on an object this size when it's an inch above the table surface. Unfortunately, there was no way to tell from the product description that this was the case.

Each of the puzzles are excellent in and of themselves. Yet, I wonder if there should be less variegation in them. Those like me who enjoy hard and evil puzzles are unimpressed by the easy and medium ones; I simply toss them. Perhaps printing a few that are serially organized for beginners as they improve might work. Otherwise, I've enjoyed them immensely.

The puzzles get harder as the week goes on. The weekends are the easiest, and then they get progressively more challenging. I like the bright clean look of the puzzles. They are a nice size grid, so you have space to put your possibilities and the paper is easy to erase on. It leaves a nice clean space after erasures. Pencil shows up well on this grid. I've bought this brand for a few years now, and will continue to do so.

I have been getting this product for four years now and have really enjoyed it. This year they changed packaging, and you forced to rip off a page to change the date. It is leaving the calendar tattered and unsightly looking on my desk. Previous years you simply removed a day from a holder to change the calendar. I do not think I'll be getting this again for 2017. That is kind of unfortunate because the puzzles themselves are enjoyable.

What happened to the "gallery style" calendar? No mention was made that it changed to "rip off" style (appropriately named). Extremely disappointed with Workman Publishing and Page-a-Day. Never again!

I've enjoyed these the last three years. I'm just disappointed that they started gluing the pages together. I liked it better when each page was separate.

I enjoy doing a puzzle every morning to get my day started with my morning coffee. It is a fun way to engage your brain for the day ahead.
