Baphomet: The Temple Mystery Unveiled

Synopsis

For seven centuries, the enigma of Baphomet has mystified both scholars and the general public. Did the Knights Templar really worship a demonic idol of that name? If so, what does the word mean? What is the origin of this figure? What was the nature of the rituals that the Templars performed in secret? What were their covert beliefs? Why, if the Templars initially described their idol as a mummified severed head, is this figure now represented as a hermaphrodite human with the head of a goat? Authors Tracy R. Twyman and Alexander Rivera have dived head-first into the bottomless abyss of this mystery and returned with some astounding wisdom to share. Here for the first time they reveal the genesis of these symbols, showing how they relate to the Witches' Sabbath, traditions of Sufi Islam, alchemy, Gnosticism, cabalism, the teachings of Hermes Trismegistus, and so much more. Learn why the Templars and their beloved severed head are frequently associated with John the Baptist, and how this connects to his student, Simon Magus. Discover the real facts about things like the Chinon Parchment, The Book of the Baptism of Fire, the Templar Abraxas seals, and newly-found documents which claim that the Templars discovered the real Temple of Solomon during a secret trip to Mecca. Join Twyman and Rivera on this exciting adventure into the unknown. Immerse yourself in this knowledge, if your heart has the strength. It is certain that your mind will never be the same.

This book is an encyclopedic explanation of the findings of the author--over decades of her

life--concerning the root of the Holy Grail and Templar Mysteries.No greater work exists on this subject to date. The narrative is clear, concise, unbiased and there are so many references that you could literally spend 5 years exploring her sources and not gain as full a knowledge of "Baphomet" as herself and Alex have gained.THERE IS NO OTHER BOOK LIKE THIS IN THE WORLD. The comparison and exploration of Baphomet and it's links to other 'gods' like Abraxas or Sophia is head and shoulders above anything else I've seen.No holds barred. Twyman and Rivera do not candy coat, or shy away from anything. Insights into human and child sacrifice, blood rituals, sacred severed heads, ancient and modern gnosticism, and especially Alchemy abound here in this text.BUY THIS BOOK. Gain a greater understanding of the mysteries of the world you've been born into.You wont regret it.

This is the most comprehensive study on Baphomet ever written. Thankfully free from excessive conspiracy theorizing (which can be tedious), this book deeply investigates the many dimensions both esoteric and historical of the Baphomet enigma. I am an occult polymath by innate nature, and there is not a lot of information in certain areas that i am not at least distantly familiar with in some way. That said, I must admit that there were pieces of Lore which to me were hitherto obscure. Imagine my joy at discovering these new ideas. It is a delightful read for a sincere and patient mind. I feel that this work stands above Stacys other writing, which is already very interesting. Alex Rivera balances Mrs Twyman very well in my opinion, and together they created a tour de force. A must have for students of gnostic lore, kabbalah and masonry. Strongly Recommended.

An eye opener! Lots of info condensed in just one book. Everyone interested in the occult, esoteric or even traditional religious stuff, should read this book.Lots of topics, from Genesis, Lilith/Samael, Adam and Eve, Templars, etc etc. A+Definitive, I will check for more stuff written by the authors.ÃÂExcelente libro! Cualquiera interesado en lo oculto, esotÃfÃrico e inclusive, religiÃfÃn tradicional, deberÃfÃ a leer el libro.

Well its like this. It turns out that the world is yet to realize just how deep this thing really gets. After thousands of years of indoctrination and manipulation even being able to grasp the truth is a difficult feat even for the Adept. However when one is tired of the endless incarnations and is ready to know the truth that most can't handle then here it is. Wrapped up with a bow on it. :-) As a thorough researcher I can say there are lifetimes worth of knowledge in this work and things even translated from the German that most that speak English only will never see thus never being able to connect

the missing links. My only complaint is that there are not a few more stars to give it. Amazing work by Twyman and Rivera.

As usual, Tracy Twyman's scholarship unlocks another great mystery of western hermetics. Not "conspiracy theory" or "new age," the author's work is meticulously researched based on material in the public domain and tucked away in international libraries. If you're curious about the strange and sometimes frightening lore surrounding Baphomet, you should definitely add this to your library.

Excellent read.

Thank you for this powerful information. Thank you freeman.tv
