My Experience Of Migration To Australia: How To Buy Your Way Into Oz

Synopsis

My Experience of Migration to Australia: How to Buy Your Way Into OZ By Besko Halilovic

This 202-page tour de force on the intricacies of migrating to Australia should serve as a handbook for the near one million people who seek entry each year. When author Besko Halilovic first considered migrating to Australia, he was beset with a host of difficult to understand challenges. At the time there was no authoritative resource to give him advice, tell what to expect, explain requirements, and show him the way. This book serves as that detailed guide needed by the many thousands of people who attempt migration into Australia. He starts by advising individuals to have a good reason to migrate. He explains the many various options available from the Australian Embassy as well as his experience with the USA Embassy. Along the way, Besko shares important reality checks to keep hopeful migrants focused, prepared, and realistic. He shares his personal story of being a seaman from Croatia. He soon learned his Croatian degree and maritime certificates were not recognised in Australia and would not qualify him to receive a skilled migrant visa. He saved his money, applied for a student visa, and was able to migrate by satisfying all the requirements of that pathway. He enrolled in the Bachelor of Accounting program in Melbourne eventually receiving his degree. The new degree became the basis for Halilovic's permanent residency visa application. He received his Australian citizenship a few years later. This book shares real life experiences about the actual process of visa application. What to expect when attending the IELTS test, the author's view about migration and migrants met in Australia, and other realistic visa options available to applicants. Halilovic went from not being able to get a visa to ending his maritime career to trying to work with his father and going bankrupt. He was stranded for almost a year while struggling to get another contract to continue sailing. He considers that to be his worst point. Only through perseverance over several years was he able to find his way and ultimately gain his citizenship. This book chronicles that experience while sharing the many facts, strategies, and recommendations for making the migration process easier and more successful. This book serves as a first-hand experience from someone who has gone from confusing failure to successful migration. It serves as a guidebook for those who dream to do the same. The book's subtitle humorously refers to an experienced and dedicated seaman taking on accounting but later discovering it was not his calling. He says it turned out to be a bit like buying his way into the country. However, prospective migrants must consider all realistic avenues to residence and citizenship. This book provides those possibilities with complete details to help any migrant experience an easier time of successfully navigating the route to migration. This book makes a wonderful gift for anyone who dreams of becoming a permanent resident of Australia. It is an

inspiring story that will keep readers encouraged and hopeful while becoming much better informed.
