Customer Reviews

This was a short, instructive read for getting an essential comprehension of Cryptocurrency. Being cautious the correct method for utilizing our money related innovation these days. Learning gives the preferred standpoint to me in the cash matter. It gave a decent prologue to the subject and a clearer understanding. This is the exceptionally accommodating manual for novices. This is an astounding book ponder for an extreme guide. This book Cryptocurrency

Very well written and researched book. The author found a good balance between monetary concepts and the technical aspects of the new currency. I started by knowing very little about Blockchain and can claim that I am better informed.

A must for anyone unfamiliar with Bitcoin and looking to learn more about it, or for existing believers in the digital currency. With real examples of companies and business people using Bitcoin or advocating for it. Highly Recommended!!

This is an informative book that reviews the six-year history of bit coins. A lot of detail, perhaps sometimes too much, but lots of good resource information.

Clearly articulated the genesis, structure, and current thinking re: potential of Bitcoin and the blockchain for a relative neophyte. Highly recommend.

Its very educational to read this book. Being vigilant the right way of using our financial technology nowadays. Knowledge gives advantage to me in money matter.

. This is just a beginners guide for first timer user . it gave a good introduction to the subject and a clearer understanding.

This is indeed a great source of information about cryptocurrency. You will surely learn a lot.
